

SUICIDE SAFER CARE

Preventing Suicide in Patients & Staff: A Webinar Series for Healthcare Professionals and Health Centers

NOVEMBER 2023-JANUARY 2024

bit.ly/mpcaprevention

Suicide rates reached their highest recorded levels in 2022. As vital providers of primary care, community health centers (CHCs) can play a key role in addressing this public health crisis. Half of individuals who end their lives by suicide visit a primary care provider in the month before their passing, making these visits key opportunities to intervene. Join a webinar series from the Association of Clinicians for the Underserved and the Missouri Primary Care Association to learn evidence-based strategies to identify and intervene with patients at risk, to support clinicians and staff who may themselves be at risk, and to create a culture of Suicide Safer Care for all at CHCs.

Webinars

Suicide Safer Care for Primary Care Providers and Their Teams

Nov. 7, 2023: 11 a.m.-12 p.m. CT

Learn a comprehensive approach to identifying and managing patients at risk for suicide in primary care settings.

Suicide: Considerations for Health Center Leaders

Nov. 8, 2023: 11 a.m.-12 p.m. CT
